

INVESTING IN INNOVATIVE DUTCH LIFE SCIENCES FACILITIES

The Mibiton foundation invests in Life Sciences facilities and equipment enabling Dutch SMEs to accelerate their commercial activities. Examples of investments include analytical equipment, first series of medical devices, clean rooms and agro-food production facilities. Investments are provided in the form of loans of up to € 400,000 (Solo) or € 600,000 (Share).

A photograph of two men sitting on a bench in a laboratory. The man on the left is wearing a dark blazer over a checkered shirt and light-colored trousers. The man on the right is wearing a dark blazer over a light-colored shirt and glasses. They are both smiling. The background shows laboratory equipment, including a control panel with a screen and a warning sign.

JOHAN TIJHUIS, CEO:

“THE MIBITON INVESTMENT MADE IT POSSIBLE FOR US TO CREATE A STATE-OF-THE-ART STORAGE FACILITY FOR THIRD PARTY COMPOUND LIBRARIES. THIS WAS AN IMPORTANT STEP IN OUR COMPANY’S GROWTH AND THE STRENGTHENING OF OUR LEADING POSITION IN THE COMPOUND MANAGEMENT MARKET”

Specs, Compound Handling B.V. Zoetermeer, the Netherlands
www.specs.net

Specs provides Compound Management services for R&D divisions in the Life Science industry. These services focus on all aspects of handling out-sourced compound libraries such as storage, reformatting and distribution, but also compound sourcing and quality control. Currently, millions of compounds are stored at Specs from top 10 pharma, start-ups, academia and NGOs. With the financial help of Mibiton, Specs was able to expand the state-of-the-art storage facility and strengthen their market position. This event has triggered further expansions at both Specs’ US and EU facilities in semi-automated storage systems under various temperature and humidity controlled conditions.
